## ***National Vocational Certificate Level 3 in Mining Process Technology (Senior Technician)***

### **Introduction**

#### **Definition/Description of training program (Senior Technician)**

Mining sector is one of the booming industries of Pakistan. There is an increasing demand of the Senior Technician. Therefore, the skills are required to be inducted in the future generation. If an individual is planning to pursue a career in mining, this program will be helpful in targeting various commercial and non-commercial projects etc. If an individual is planning to take up Senior Technician course, this course will help him weigh their choices better.

Keeping in view of the above the competency based national vocational qualifications have been developed by NAVTTTC to train the unskilled human resource on the technical and entrepreneurial skills to be employed / self-employed and inevitably set sustainable impact on their lives by increasing their livelihood income.

Training Course is based on competency standards which are defined by the industry and the traditional role of a trainer changes and shifts towards the facilitation of training. A trainer encourages and assists trainees to learn for themselves. Trainees are likely to work in groups (pairs) and all doing something different. Some are doing practical tasks in the workshop, some writing, some not even in the classroom or workshop but in another part of the building using special equipment. As trainees learn at different pace they might be at different stages in their learning, thus learning must be tailored to suit individual needs. The following facilitation methods (teaching strategies) are generally employed.

#### **Purpose of the training program:**

The purpose of the training is to provide skilled manpower to improve the existing construction industry. More than 96 % of the Pakistani manpower is working in GCC countries where Saudi Arabia (50.90%) and UAE (33.10%) are the largest destination countries followed by Oman (7.26%), Kuwait (1.90%), Bahrain (1.58%), and Qatar (1.41%). The overseas Pakistanis are playing a pivotal role to support the economy in the form of remittances. According to new labor laws, a large number of skilled labors is demanded by Saudi Government especially for the construction sector. For this purpose, new qualifications have

## ***National Vocational Certificate Level 3 in Mining Process Technology (Senior Technician)***

been developed by NAVTTTC on CBT&A mode in order to train the unskilled human resource with employable skills and cater the demand of Saudi Government. Moreover, the availability of skilled professionals will bring socio-economic benefits to all stakeholders.

### **Overall objectives of training program:**

The main objectives of the National Vocational Certificate Level 3 in Mining Process Technology (Senior Technician) are as follows:

- Improve the professional competence of mining process
- Capacitate the local community and trainers in modern CBT training, methodologies and processes as envisaged under NVQF
- Provide flexible pathways and progressions in the mining sector
- Enable the trainees to perform their duties in efficient manner
- Establish a standardized and sustainable system of training for Mining Process technology across globe

### **Competencies to be gained after completion of course:**

At the end of the course, the trainee has attained the following core competencies:

#### **National Vocational Certificate Level 3 in Mining Process Technology (Senior Technician)**

1. Manage Inventory of mine material
2. Develop 3D drawing
3. Develop 2D drawings
4. Perform Basic Computer Operations
5. Perform Conveyor Operations
6. Perform Blasting Operation

## ***National Vocational Certificate Level 3 in Mining Process Technology (Senior Technician)***

7. Perform Core Drilling for Mining
8. Work in a Team Environment
9. Maintain Safety at Site

**Possible available job opportunities, available immediately and later in the future:**

### **Possible Career paths**

- Senior Technician
- Technician
- Operations Manager
- Mine Manager
- Process Manager
- Production manager
- Maintenance Manager
- Site Manager
- Superintendent

## **National Vocational Certificate Level 3 in Mining Process Technology (Senior Technician)**

### **Trainee entry level:**

The entry level for National Vocational Certificate Level 3 in Construction Sector (**Senior Technician**) is given below:

<b>Title</b>	<b>Entry requirements</b>
National Vocational Certificate Level 3 in Mining Process Technology ( <b>Senior Technician</b> )	The entry requirement is Level-2 in Mining process Technology “Junior Assistant” in formal institute. The entry in informal sector is not prescribed.

### **Minimum qualification of trainer:**

A. Must be a holder of DAE/Level 5 Diploma in Civil Technology with at least 2 years relevant experience

**OR**

B. B.Sc Engineering Technology (Civil) / B.E Civil /B.Sc Civil Engineering

### **Recommended trainer: trainee ratio**

The recommended maximum trainer: trainee ratio for this program is 1 trainer for 25 trainees.

### **Medium of instruction i.e. language of instruction:**

Instructions will be in Urdu/ English/ Local language.

## National Vocational Certificate Level 3 in Mining Process Technology (Senior Technician)

### Duration of the course (Total time, Theory & Practical time):

The distribution of contact hours is given below:

<b>Total</b>	-	<b>600 hours</b>
<b>Theory</b>	-	<b>120hours (20%)</b>
<b>Practical</b>	-	<b>480 hours (80%)</b>

**Proposed Course Duration-6 Months**

### Sequence of modules:

<b>Module-1</b> Maintain Safety at Site	<b>Module-3</b> Perform Core Drilling for Mining	<b>Module-5</b> Perform Conveyor Operations
<b>Module-2</b> Work in a Team Environment		<b>Module-4</b> Perform Blasting Operation
<b>Module-6</b> Perform Basic Computer Operations	<b>Module-8</b> Develop 3D drawing	<b>Module-9</b> Manage Inventory of mine material
<b>Module-7</b> Develop 2D drawings		

## National Vocational Certificate Level 3 in Mining Process Technology (Senior Technician)

### Summary Template-Overview of the Curriculum:

Following is the structure of the course:

Sr. No	Code	Competency Standards	Occupation	NVQF Level	Category	Estimated Contact Hours			Cr Hr
						Th.	Pr	Total	
<b>Level 3</b>									
1	724MP13-A	Maintain Safety at Site	<b>Senior Technician</b>	3	Generic	17	63	80	8
2	724CO09-B	Work in a Team Environment		3	Generic	12	18	30	3
3	724MP13-C	Perform Core Drilling for Mining		3	Technical	17	63	80	8
4	724MP13-D	Perform Blasting Operation		3	Technical	17	63	80	8
5	724MP13-E	Perform Conveyor Operations		3	Technical	6	54	60	6
6	724MP13-F	Perform Basic Computer Operations		3	Generic	20	30	50	5

**National Vocational Certificate Level 3 in Mining Process Technology  
(Senior Technician)**

7	724MP13-G	Develop 2D drawings		3	Functional	9	71	80	8
8	724MP13-H	Develop 3D drawing		3	Functional	9	71	80	8
9	724MP13-I	Manage Inventory of mine material		3	Technical	13	47	60	6
		<b>Total</b>				<b>120</b>	<b>480</b>	<b>600</b>	<b>60</b>
		<b>Percentage</b>				<b>20</b>	<b>80</b>

### Summary – overview of the curriculum

Module Title and Aim	Learning Units	Theory Days/hours	Workplace Days/hours	Timeframe of modules
<p><b>Module 1:</b> Maintain Safety at Site</p> <p><b>Aim:</b> After successful completion of this module, the trainee is competent in maintaining safety at site</p>	<p><b>LU1:</b> Maintain safe work condition at site  <b>LU2:</b> Perform fire fighting  <b>LU3:</b> Carry out first aid treatment  <b>LU4:</b> Perform Basic electrical work safely at workplace</p>	17	63	80
<p><b>Module 2:</b> Work in a Team Environment</p> <p><b>Aim:</b> After successful completion of this module, the trainee is competent in working in a team environment</p>	<p><b>LU1:</b> Obtain and convey Workplace information  <b>LU2:</b> Participate in workplace meetings and discussions  <b>LU3:</b> Identify own role and responsibility within team  <b>LU4:</b> Support the co-workers</p>	12	18	30

## National Vocational Certificate Level 3 in Mining Process Technology (Senior Technician)

Module Title and Aim	Learning Units	Theory Days/hours	Workplace Days/hours	Timeframe of modules
<p><b>Module 3:</b> Perform Core Drilling for Mining</p> <p><b>Aim:</b> After successful completion of this module, the trainee is competent in performing core drilling for mining</p>	<p><b>LU1:</b> Prepare drilling site  <b>LU2:</b> Handle equipment and materials to pattern  <b>LU3:</b> Measure the mud parameters  <b>LU4:</b> Perform manual drilling  <b>LU5:</b> Perform rotary drilling  <b>LU6:</b> Perform reclamation</p>	17	63	80
<p><b>Module 4:</b> Perform Blasting Operation</p> <p><b>Aim:</b> After successful completion of this module, the trainee is competent in performing blasting operation</p>	<p><b>LU1:</b> Identify the properties of explosives  <b>LU2:</b> Prepare layout for blasting  <b>LU3:</b> Arrange pre-blast operations  <b>LU4:</b> Maintain magazine /kit for blasting process  <b>LU5:</b> Set-up blast site  <b>LU6:</b> Conduct post blast operations  <b>LU7:</b> Detonate site</p>	17	63	80

## National Vocational Certificate Level 3 in Mining Process Technology (Senior Technician)

Module Title and Aim	Learning Units	Theory Days/hours	Workplace Days/hours	Timeframe of modules
<p><b>Module 5:</b> Perform Conveyor Operations</p> <p><b>Aim:</b> After successful completion of this module, the trainee is competent in performing conveyor operations</p>	<p><b>LU1:</b> Prepare for conveyor operations  <b>LU2:</b> Operate conveyor  <b>LU3:</b> Carry out maintenance of Conveyor  <b>LU4 :</b> Conduct housekeeping activities</p>	6	54	60
<p><b>Module 6:</b> Perform Basic Computer Operations</p> <p><b>Aim:</b> After successful completion of this module, the trainee is competent in performing computer operations</p>	<p><b>LU1:</b> Perform basic Configuration of Computer System  <b>LU2:</b> Create a document using MS word  <b>LU3:</b> Prepare Spreadsheet using MS Excel  <b>LU4:</b> Prepare a presentation using MS Power Point</p>	20	30	50

## National Vocational Certificate Level 3 in Mining Process Technology (Senior Technician)

Module Title and Aim	Learning Units	Theory Days/hours	Workplace Days/hours	Timeframe of modules
<p><b>Module 7:</b> Develop 2D drawings</p> <p><b>Aim:</b> After successful completion of this module, the trainee is competent in developing 2D drawings</p>	<p><b>LU1:</b> Develop 2D Objects <b>LU2:</b> Prepare Final Set of 2D Drawings</p>	9	71	80
<p><b>Module 8:</b> Develop 3D Drawings</p> <p><b>Aim:</b> After successful completion of this module, the trainee is competent in developing 3D drawings</p>	<p><b>LU1:</b> Develop 3D Objects <b>LU2:</b> Manipulate 3D objects using 3D Editing Tools <b>LU3:</b> Render 3D Model</p>	9	71	80

## National Vocational Certificate Level 3 in Mining Process Technology (Senior Technician)

Module Title and Aim	Learning Units	Theory Days/hours	Workplace Days/hours	Timeframe of modules
<p><b>Module 9:</b> Manage Inventory of Mine Material</p> <p><b>Aim:</b> After successful completion of this module, the trainee is competent in managing inventory of mine material</p>	<p><b>LU1:</b> Maintain the Log Register  <b>LU2:</b> Measure the raw material available in the stack yard  <b>LU3:</b> Maintain safe storage of mineral material  <b>LU4:</b> Inspect mineral material</p>	13	47	60

## National Vocational Certificate Level 3 in Mining Process Technology (Senior Technician)

### Module 1: Maintain Safety at site

**Objective:** This competency standard covers the skills and knowledge required to maintain safe work condition at site, emergency response activity at site. Your underpinning knowledge will be sufficient to provide you the basis for your work.

**Duration: 80Hours**

**Theory: 17 Hours**

**Practice: 63 Hours**

**Credit Hours: 8**

Learning Unit	Learning Outcomes	Learning Elements	Duration	Materials Required	Learning Place
<b>LU 1</b> Maintain safe work condition at site	<b>The trainee will be able to:</b> <ol style="list-style-type: none"> <li>1. Recognize the safety signs and symbols</li> <li>2. Identify potential hazards at work site</li> <li>3. Identify the risk of slip, trip and fall at work place</li> <li>4. Perform fall protection measures as per job</li> </ol>	<ul style="list-style-type: none"> <li>• Describe the safety signs at work place</li> <li>• Demonstrate the fall protection measures</li> <li>• Describe unsafe act and unsafe conditions</li> <li>• Knowledge of hazardous materials and relevant safety procedures</li> </ul> <p><b>Activity:</b></p> <ul style="list-style-type: none"> <li>• Visit the work site and identify the potential</li> </ul>	<b>Total</b> 26 hrs <b>Theory:</b> 5 hrs <b>Practical:</b> 21 hrs	<div style="background-color: #cccccc; padding: 2px;">Consumable</div> <ul style="list-style-type: none"> <li>• Notebooks</li> <li>• Pencils</li> <li>• Erasers</li> <li>• Sharpeners</li> <li>• White board marker</li> <li>• Duster</li> </ul> <div style="background-color: #cccccc; padding: 2px;">Non</div> <div style="background-color: #cccccc; padding: 2px;">Consumable</div> <ul style="list-style-type: none"> <li>• White board</li> </ul>	<ul style="list-style-type: none"> <li>• Class Room</li> <li>• Simulated environment</li> </ul>

### Module7- Develop 2D Drawings

**Objective of the module:** The aim of this module to get knowledge, skills and understanding to develop 2D drawings.

**Duration: 80 Hours**

**Theory: 09 Hours**

**Practice: 71 Hours**

**Credit Hours: 08**

Learning Unit	Learning Outcomes	Learning Elements	Duration	Materials Required	Learning Place
LU1.Draw 2D shapes	<p><b>Trainee will be able to:</b></p> <ol style="list-style-type: none"> <li>1. Setup user interface settings for required drawing.</li> <li>2. Create different 2D shapes with given measurements.</li> <li>3. Edit different 2D shapes to meet requirement.</li> <li>4. Insert dimensions and symbols as per requirement</li> <li>5. Save the file in different drawing formats</li> </ol>	<ul style="list-style-type: none"> <li>• Explain import export of drawing sketch in different formats in CAD Software</li> <li>• Explain 2D setup</li> <li>• Functions of Creating and Editing tools</li> <li>• Dimensions and Symbols</li> <li>• Different file extensions for saving files (JPEG, PDF, etc.)</li> </ul> <p><b>Activity:</b></p> <ul style="list-style-type: none"> <li>• Draw and practice of different drawings related to mining</li> </ul>	<p><b>Total:</b> 38hrs <b>Theory:</b> 05hrs <b>Practical:</b> 33hrs</p>	<p><b>Consumable</b></p> <ul style="list-style-type: none"> <li>• Notebooks</li> <li>• Pencils</li> <li>• Erasers</li> <li>• Sharpeners</li> <li>• White Board marker</li> <li>• Duster</li> <li>• USB</li> </ul> <p><b>Non Consumable</b></p> <ul style="list-style-type: none"> <li>• White board</li> <li>• Multimedia</li> <li>• Internet</li> <li>• Computer system</li> <li>• Printer</li> </ul>	Computer Lab
