## 1. Introduction

Writing for the web has evolved into a special skill set essential to getting the most out of your online presence. As a highly interactive form of communication across a number of potential mediums, it requires a very different approach to print media.

Content writing is the art of planning, creating, writing and editing specific content for a website that would drive traffic to it through digital marketing. This type of writing requires professional and proficient language skills. Most common examples include website writing, SEO writing, fiction/non-fiction writing, blogging, affiliate marketing and much more. The content must be informative that add to the knowledge of the viewer through publishing art and communication in form of audio-visuals, which demands practice and deep knowledge. The piece of writing must be genuine and authentic with no particular format, but the style counts a lot.

Being conscious of the emerging trends in the global market, National Vocational & Technical Training Commission (NAVTTTC), Pakistan, has developed Competency Standards in consultation with the stakeholders including academia, researchers, industry, chambers and TEVTAs for ‘Content Writing’ under National Vocational Qualifications Framework (NVQF). The competency standards document has been designed in a way that trainees can develop skills in the ability to explore and analyse writing in technical, scholarly and professional contexts. They can consolidate their knowledge and skills through advanced practice in writing, creating, editing, designing and producing content for professional and technical purposes, with concrete application on industry sourced documents and projects.

The National Competency Standards could be used as a referral document for the development of the curriculum to be used by training institutions.

## National Vocational Qualification Level – 2 of Content Writing ‘Copywriter’

### 2. Purpose of the Qualification

The purpose of this qualification is to set high professional standards for content writing in order to compete with the local and international job markets. The specific objectives of developing these qualifications are as under:

- Produce quality Content Writers.
- Produce competent Content Creators.
- Produce competitive Freelancers.
- Promote prosperous Digital Marketers.
- Enabling the youth with greater employment opportunities.
- Improve the quality and effectiveness of the training and assessment for the Content Writing Industry

### 3. Overall Objectives of the Training Course

The primary objective of this training program is to provide a hands-on learning experience and practical exposure to the trainees with up-to-date knowledge and skills required by the Content Writing Industry with particular reference to planning, creating, writing and editing content through the six-month training program in a comprehensive way to cope with the challenges of the global digital market. After qualifying the course at different levels (Level 2 – 4), the writers will be able to perform as entrepreneurs and get jobs in Writing Industry as Communicators, Writers, i.e. Copywriters, Freelance writers, Technical writers and Creative Writers. The course contents are specifically designed in such a way that it covers all the significant areas of Content Writing to keep pace with the National and International sectors.

The overall objectives of developing this qualification are to:

- Improve the overall quality of training delivery and set national benchmarks for the training of Content Writers in the country.
- Provide flexible and progressive learning opportunities for trainees to receive relevant and up-to-date skills in the Writing Industry.
- Provide the basis for competency-based assessment, which employers recognise and accept in modern days.
- Establish standardised and sustainable training in consultation with the Writing Industry.

#### 4. Competencies to be gained after Completion of the Course

After completing this course, the trainee will be capable of performing different activities in the Writing industry especially copywriting, effectively. Furthermore, this professional writing training program enables the trainee to develop and integrate the content in multispectral competencies such as strong writing skills, creative thinking, problem-solving, interpersonal skills, research skills, personal and team management, presentation and communication skills, technical and professional negotiations related to the Writing Industry. The below-listed competencies imprinted by this training program are quite prominent to the trainees’ profile to enhance their employability in their career in the Writing industry:

- Elemental knowledge and concepts of creating and integrating content in the Writing industry.
- Creative thinking and troubleshooting writing skills in any niche of the Writing industry.
- Potential to transform theoretical knowledge into practice.
- Identify and explore potential areas of opportunities in the Writing industry.
- Develop strategies to maintain the quality and safety of the workplace.
- Time management, working in teams and conflict handling among co-workers.
- Safe and secure use of workplace tools, techniques and materials at worksites.
- Digital documentation and effective communication skills.
- Successful marketing campaigns.
- Working to help establish Small and Mid-sized Enterprises (SMEs), National and International Startups.
- Meeting the packed timelines.

## 5. Job Opportunities available Immediately and in the Future

The successful pass out of this course may avail entrepreneurial opportunities and/ or fetch job/ employment in writing industry as:

- Content Writer
- Blogger
- Copy Writer
- Copy Editor
- Email and Newsletter Developer
- Communication Assistant
