## 1. Introduction

Writing for the web has evolved into a special skill set essential to getting the most out of your online presence. As a highly interactive form of communication across a number of potential mediums, it requires a very different approach to print media.

Content writing is the art of planning, creating, writing and editing specific content for a website that would drive traffic to it through digital marketing. This type of writing requires professional and proficient language skills. Most common examples include website writing, SEO writing, fiction/non-fiction writing, blogging, affiliate marketing and much more. The content must be informative that adds to the knowledge of the viewer through publishing art and communication in form of audio-visuals, which demands practice and deep knowledge. The piece of writing must be genuine and authentic with no particular format, but the style counts a lot.

Being conscious of the emerging trends in the global market, National Vocational & Technical Training Commission (NAVTTTC), Pakistan, has developed Competency Standards in consultation with the stakeholders including academia, researchers, industry, chambers and TEVTAs for ‘Content Writing’ under National Vocational Qualifications Framework (NVQF). The competency standards document has been designed in a way that trainees can develop skills in the ability to explore and analyse writing in technical, scholarly and professional contexts. They can consolidate their knowledge and skills through advanced practice in writing, creating, editing, designing and producing content for professional and technical purposes, with concrete application on industry sourced documents and projects.

The National Competency Standards could be used as a referral document for the development of the curriculum to be used by training institutions.
