ASSESSMENT SUMMARY AND RECORD

ACTIVITY	METHOD				DESIRED OUTCOMES	RESULT	
NATURE OF ACTIVITY	WRITTEN	ORAL	PORTFOLIO	OBSERVATION	DESIRED OUTCOMES FOR SUCCESSFUL ASSESSMENT OF: APPLY PLUMBER (ASSISTANT) SKILLS FOR SOLAR PV SYSTEMS	COMPETENT	NOT YET COMPETENT
Practical final project	✓	✓	✓	✓	Complete supplied project brief related to application of Plumber (Assistant) skills on solar PV systems: • Maintain workplace safety • Apply continuing professional development • Perform preventive maintenance as part of plumbing operations • Perform corrective maintenance as part of plumbing operations • Perform lay-out and excavation • Fix basic sanitary ware • Join fittings and pipes • Use and maintain plumbing tools and equipment • Demonstrate knowledge of solar water heating system types		
Knowledge assessment		✓			• Answer all questions the Assessment Panel will have following oral presentation of completed project brief		
Other requirements	✓	✓	✓	✓	• All completed course assignments, projects and formative assessments including: - o Observations - o Demonstrations - o Questions and recorded answers • Oral presentation of project to assessment panel • Completed learner logbooks • Completed work forms/records • Completed job cards • Evidence of participating in training programmes • Documented training outcomes such as reports and portfolio writing • Measuring instrument calibration records		

2

CANDIDATE ASSESSMENT

Candidate Name..... Father Name

ALL WORK ASSESSED FOR THESE COMPETENCY STANDARDS MUST BE YOUR OWN WORK.

GUIDANCE TO CANDIDATE

To meet this standard you are required to:

- Apply Plumber (Assistant) skills for solar PV systems

ACTIVITIES	CANDIDATE RESPONSE
1. Complete portfolio of evidence	• All completed formative assessments including: - o Observations - o Demonstrations - o Questions and recorded answers • All completed course assignments and projects including: - o Drawings and sketches of plumbing layouts - o Calculations of materials, labour costs and overall costs • Completed work forms/records • Completed job cards • Evidence of development of business plan which includes: - o Financial plan - o Service and product delivery - o Marketing strategy
2. Complete project brief of applying Plumber (Assistant) skills for solar PV systems under observation by Instructor	• I will correctly complete requirements of supplied project brief under the following conditions: - o In a group or individually, as required by project brief - o Supplied brief will require a 5 day period to complete in a workshop environment Your Assessment Panel will be looking for your competence in: - o Demonstrating task skills, task management (integration of tasks), managing any contingencies which may arise and task outcomes throughout the project timeframe - o Applying knowledge and skill in the working environment
3. Present completed project brief to Assessment Panel	• Oral presentation of project brief and completed project work to Assessment Panel. • Presentation to include: - o Requirements of brief - o Planning and preparation of project - o Problems encountered and how they were dealt with - o Project outcome/s - o Lessons learnt from undertaking project (reflective thinking) • Presentation to take no longer than 10 minutes
4. Answer all questions Assessor Panel will have following project presentation	My answers to questions are correct and demonstrate my understanding of the topics and their application.

3

ASSESSOR JUDGEMENT GUIDE

Candidate Name Father Name

INSTRUCTIONS FOR ASSESSMENT PANEL

THIS SECTION CONTAINS MINIMUM EVIDENCE REQUIREMENTS.

- The Assessment Panel will consist of three members: a registered Assessor, the candidate's Instructor and an expert from the private sector.
- The project brief will consist of integrated task requirements to enable the candidate to supply sufficient evidence of their competence in the skills required to work as a Plumber (Assistant) on solar PV systems
- The project brief must be suitable for the level of knowledge and skills required (i.e. Level 2)
- The timeframe for completion of assigned project brief is 5 working days
- The candidate may work in a team or as an individual to complete the project brief. If in a team, the contribution of each candidate must be clearly defined and observable.

ACTIVITIES	MINIMUM EVIDENCE REQUIRED	YES/NO	ASSESSOR COMMENTS ON CANDIDATE PERFORMANCE
1. Completes all course assignments	• All completed formative assessments including: - o Observations - o Demonstrations - o Questions and recorded answers • All completed course assignments and projects including: - o Drawings and sketches of plumbing layouts - o Calculations of materials, labour costs and overall costs • Completed work forms/records • Completed job cards • Evidence of development of business plan which includes: - o Financial plan - o Service and product delivery - o Marketing strategy		
2. Complete project brief of applying Plumber (Assistant) skills on solar photovoltaic (PV) systems under observation by Instructor	Completed requirements of supplied project brief under the following conditions:		
	• In a group or individually, as required by project brief		
	• Supplied brief will require a 5 day period to complete in a workshop environment		
	• Demonstrating task skills, task management (integration of tasks), managing any contingencies which may arise and task outcomes throughout the project timeframe		
3. Present completed project brief to Assessment Panel	• Applying knowledge and skill in the working environment		
	Oral presentation of project brief and completed project work to Assessment Panel.		
	Presentation to include:		
	• Requirements of brief • Planning and preparation of project • Problems encountered and how they were dealt with		
	• Project outcome/s • Lesson learnt (reflective thinking)		

ACTIVITIES	MINIMUM EVIDENCE REQUIRED	YES/NO		ASSESSOR COMMENTS ON CANDIDATE PERFORMANCE
	Presentation to take no longer than 10 minutes			
4. Answer all questions Assessment Panel will have following project presentation	Candidate confidently answered questions correctly and demonstrated understanding of the topics and their application. Assessment Panel to document all questions asked, if any, and the answers here. Use extra pages as required and attach here. 			

4

LIST OF TOOLS, EQUIPMENT, MATERIAL AND CONTEXT OF ASSESSMENT

instructions

This section contains information regarding;

- Context of the assessment
- List of required tools and equipment.
- List of consumable items required during the service

1. Context of Assessment

This practical final project will be conducted in a Plumber's lab/workshop environment.

Required tools, equipment and consumables will vary according to project brief.

CANDIDATE ASSESSMENT

Candidate Name:

Father Name:

ALL WORK ASSESSED IN THIS COMPETENCY STANDARD MUST BE YOUR OWN WORK.

GUIDANCE TO CANDIDATE

To meet this standard you are required to complete the following practical tasks within set timeframe on the following topics:

- Plan and prepare for preventive maintenance
- Perform troubleshooting
- Carry out preventive maintenance
- Complete work

ACTIVITIES	CANDIDATE RESPONSE
1. Complete practical assessment	During a practical assessment, under observation by an assessor, I will correctly: • Plan and prepare for preventive maintenance on supplied solar water heating system, including: - o Identify and obtain safety and other regulatory requirements for maintenance - o Interpret layout diagrams - o Identification and selection of tools and equipment • Perform routine inspection of supplied solar water heating system, including: - o Checks for safety hazards - o Carrying out procedures for routine checks - o Documenting inspection results • Carry out preventive maintenance on supplied solar water heating system, including: - o Performing basic measurements tests - o Performing minor adjustments and calibrations - o Replacing worn out or damaged parts • Complete work by: - o Complete work related documents and procedures - o Perform final quality inspection - o Cleaning up and storing tools, equipment and material • Meet set timeframe appropriate for supplied solar water heating system requiring preventive maintenance
2. Complete knowledge assessment	My answers to questions are correct and demonstrate my understanding of the topics and their application:
3. Other requirements	• All candidate formative assessments completed by Instructor including; - o Observations - o Demonstrations - o Questions and recorded answers • All work produced as module projects and assignments • Completed learner logbooks • Completed work records

3

ASSESSOR JUDGEMENT GUIDE

Candidate Name:

Father Name:

INSTRUCTIONS FOR ASSESSOR

THIS SECTION CONTAINS MINIMUM EVIDENCE REQUIREMENTS.

The supplied plumbing appliance requiring preventive maintenance must meet the evidence requirements of the candidate's competence in performing preventive maintenance on solar water heating system as part of plumbing operations.

Set timeframe for practical skill demonstration must reflect the commercially viable timeframe for the tasks.

Oral questioning may be used to clarify candidate understanding of the topic and its application.

ACTIVITIES	MINIMUM EVIDENCE REQUIRED	YES/NO	ASSESSOR COMMENTS
1. Completed practical assessment	During a practical assessment, under observation by an assessor, the candidate correctly carried out: - Planning and preparing for preventive maintenance on supplied solar water heating system, including: - Identifying and obtaining safety and other regulatory requirements for maintenance - Interpretation of circuit diagrams - Identification and selection of tools and equipment - Performing routine inspection of supplied solar water heating system, including: - Checks for safety hazards - Carrying out procedures for routine checks - Documenting inspection results - Carrying out preventive maintenance on supplied solar water heating system, including: - Performing basic measurements tests - Performing minor adjustments and calibrations - Replacing worn out or damaged parts - Completing work by: - Complete work related documents and procedures - Perform final quality inspection - Cleaning up and storing tools, equipment and material - Meeting set timeframe appropriate for supplied solar water heating system requiring preventive maintenance		
2. Knowledge assessment	Candidate's answers to questions are correct and demonstrate understanding of the topics and their application. <i>Assessor to document below all questions asked and candidate answers. Use extra sheets if required and attached here.</i>		
3. Other requirements	- All candidate formative assessments completed by Instructor including: - Observations - Demonstrations - Questions and recorded answers - All work produced as module projects and assignments - Completed logbooks - Completed work records		

4

LIST OF TOOLS, EQUIPMENT, MATERIAL AND CONTEXT OF ASSESSMENT

Instructions	This section contains information regarding; - Context of the assessment - List of required tools and equipment. - List of consumable appliances required during the service

ALL WORK ASSESSED IN THIS COMPETENCY STANDARD MUST BE YOUR OWN WORK.

GUIDANCE TO CANDIDATE

To meet this standard you are required to complete the following practical tasks within set timeframe on the following topics:

- Plan and prepare for corrective maintenance
- Perform troubleshooting
- Carry out corrective maintenance
- Complete work

ACTIVITIES	CANDIDATE RESPONSE
1. Complete practical skill demonstration	During a practical assessment, under observation by an assessor, I will correctly carry out: Planning and preparing for corrective maintenance on supplied solar water heating system, including: - o Identifying and obtaining safety and other regulatory requirements for maintenance - o Interpretation of diagrams - o Identification and selection of tools and equipment Performing routine inspection of supplied solar water heating system, including: - o Checks for safety hazards - o Carrying out diagnostic procedures - o Identify faulty parts and/or equipment and analyse system fault Carrying out corrective maintenance on supplied solar water heating system, including: - o Dismantle faulty parts or components - o Replacing or repairing faulty or damaged parts - o Perform commissioning Completing work by: - o Complete work related documents and procedures - o Perform final quality inspection - o Cleaning up and storing tools, equipment and material Meeting set timeframe appropriate for supplied solar water heating system requiring corrective maintenance
2. Complete knowledge assessment	My answers to questions are correct and demonstrate my understanding of the topics and their application:
3. Other requirements	• All candidate formative assessments completed by Instructor including; - o Observations - o Demonstrations - o Questions and recorded answers • All work produced as module projects and assignments • Completed learner logbooks • Completed work records

3

ASSESSOR JUDGEMENT GUIDE

Candidate Name:

Father Name:

INSTRUCTIONS FOR ASSESSOR

THIS SECTION CONTAINS MINIMUM EVIDENCE REQUIREMENTS.

The supplied plumbing appliance requiring corrective maintenance must meet the evidence requirements of the candidate's competence in performing corrective maintenance of solar water heating system as part of plumbing operations.

Set timeframe for practical skill demonstration must reflect the commercially viable timeframes for the tasks.

Oral questioning may be used to clarify candidate understanding of the topic and its application.

ACTIVITIES	MINIMUM EVIDENCE REQUIRED	YES/NO	ASSESSOR COMMENTS
1. Completed practical skill demonstration	During a practical assessment, under observation by an assessor, the candidate correctly carried out:		
	Planning and preparing for corrective maintenance on supplied solar water heating system, including:		
	Identify and obtain safety and other regulatory requirements for maintenance		
	Interpret diagrams		
	Identify and select tools and equipment		
	Performing routine inspection of supplied solar water heating system, including:		
	Checks for safety hazards		
	Carrying out diagnostic procedures		
	Identify faulty parts and/or equipment and analyse system fault		
	Carrying out corrective maintenance on supplied solar water heating system, including:		
	Dismantle faulty parts or components		
	Replace or repair faulty or damaged parts		
	Perform commissioning		
	Completing work by:		
	Complete work related documents and procedures		
	Perform final quality inspection		
	Clean up and store tools, equipment and material		
	Meeting set timeframe appropriate for supplied solar water heating system requiring corrective maintenance		
2. Knowledge assessment	Candidate's answers to questions are correct and demonstrate understanding of the topics and their application. <i>Assessor to document below all questions asked and candidate answers. Use extra sheets if required and attached.</i>		
3. Other requirements	- All candidate formative assessments completed by Instructor including; - Observations - Demonstrations - Questions and recorded answers - All work produced as module projects and assignments - Completed learner logbooks - Completed work records		

4

LIST OF TOOLS, EQUIPMENT, MATERIAL AND CONTEXT OF ASSESSMENT

Instructions	This section contains information regarding; - Context of the assessment - List of required tools and equipment. - List of consumable items required during the service

ASSESSMENT SUMMARY & RECORD

CANDIDATE NAME:				FATHER NAME:			
ACTIVITY		METHOD			DESIRED OUTCOMES	RESULT	
NATURE OF ACTIVITY	WRITTEN	ORAL	OBSERVATION	PORTFOLIOS	DESIRED OUTCOMES FOR SUCCESSFUL ASSESSMENT OF COMPETENCY STANDARD: PERFORM LAYOUT AND EXCAVATION	COMPETENT	NOT YET COMPETENT
Practical skill demonstration			✓		- Plan and prepare for work - Excavate according to plan - Complete work		
Knowledge Assessment		✓			Answer any questions your assessor may have for you during the practical skill demonstration		
Other Requirements	✓	✓	✓	✓	- All candidate formative assessments completed by Instructor including; - Observations - Demonstrations - Questions and recorded answers - All work produced as module projects and assignments - Completed learner logbooks - Completed work records		

2

CANDIDATE ASSESSMENT

Candidate Name:

Father Name:

ALL WORK ASSESSED IN THIS COMPETENCY STANDARD MUST BE YOUR OWN WORK.

GUIDANCE TO CANDIDATE

To meet this standard you are required to complete the following practical tasks within set timeframe on the following topics:

- Plan and prepare for work
- Excavate according to plan
- Complete work

ACTIVITIES	CANDIDATE RESPONSE
1. Complete practical assessment of performing layout and excavation under observation by an assessor	During a practical assessment, under observation by an assessor, I will correctly: • Plan and prepare for work including: - o Identify and obtain safety and other regulatory requirements for maintenance - o Interpret and confirm layout plan - o Identify and select tools and equipment • Excavate according to plan, including: - o Check for safety hazards - o Perform excavation - o Install trench support • Complete work by: - o Complete work related documents and procedures - o Perform final quality inspection - o Clean up and store tools, equipment and material • Meeting set timeframe appropriate for supplied plumbing system requiring layout and excavation
2. Complete knowledge assessment	My answers to questions are correct and demonstrate my understanding of the topics and their application:
3. Other requirements	• All candidate formative assessments completed by Instructor including; - o Observations - o Demonstrations - o Questions and recorded answers • All work produced as module projects and assignments • Completed learner logbooks • Completed work records

3

ASSESSOR JUDGEMENT GUIDE

Candidate Name:

Father Name:

INSTRUCTIONS FOR ASSESSOR

THIS SECTION CONTAINS MINIMUM EVIDENCE REQUIREMENTS.

The supplied solar heating system requiring layout and excavation must meet the evidence requirements of the candidate's competence in performing layout and excavation tasks.

Set timeframe for practical skill demonstration must reflect the commercially viable timeframe for the tasks.

Oral questioning may be used to clarify candidate understanding of the topic and its application.

ACTIVITIES	MINIMUM EVIDENCE REQUIRED	YES/NO	ASSESSOR COMMENTS
1. Complete practical assessment of performing layout and excavation under observation by an assessor	During a practical assessment, under observation by an assessor, the candidate correctly carried out:		
	• Planning and preparing for work including:		
	o Identify and obtain safety and other regulatory requirements for maintenance		
	o Interpret and confirm layout plan		
	o Identify and select tools and equipment		
	• Excavating according to plan, including:		
	o Check for safety hazards		
	o Perform excavation		
	o Install trench support		
	• Completing work by:		
	o Complete work related documents and procedures		
	o Perform final quality inspection		
	o Clean up and store tools, equipment and material		
	• Meeting set timeframe appropriate for supplied plumbing system requiring layout and excavation		
2. Knowledge assessment	Candidate's answers to questions are correct and demonstrate understanding of the topics and their application. <i>Assessor to document below all questions asked and candidate answers. Use extra sheets if required and attached here.</i>		
3. Other requirements	- All candidate formative assessments completed by Instructor including; - Observations - Demonstrations - Questions and recorded answers - All work produced as module projects and assignments - Completed logbooks - Completed work records		

4

LIST OF TOOLS, EQUIPMENT, MATERIAL AND CONTEXT OF ASSESSMENT

instructions	This section contains information regarding; - Context of the assessment - List of required tools and equipment. - List of consumable appliances required during the service
1. Context of Assessment	This practical skill demonstration will be conducted in a Plumber's lab/workshop environment The Assessor will select the required tools, equipment and consumables from the list below for the assessment

2. List of tools and equipment required		
S. No	Tools and equipment	Quantity
1	Adjustable wrench 6",8",12"

2

CANDIDATE ASSESSMENT

Candidate Name:

Father Name:

ALL WORK ASSESSED IN THIS COMPETENCY STANDARD MUST BE YOUR OWN WORK.

GUIDANCE TO CANDIDATE

To meet this standard you are required to complete the following practical tasks within set timeframe:

- Use plumbing tools and equipment
- Perform bench work
- Perform basic arc welding
- Maintain plumbing tools and equipment

ACTIVITIES	CANDIDATE RESPONSE
1. Complete practical assessment of using and maintaining plumbing tools and equipment under observation by an assessor	During an assessment by an Assessor I will correctly carry out: Using plumbing tools and equipment • Identify and select tools, equipment and instruments • Demonstrate safe use of tools, equipment and instruments Perform bench work • Secure work piece firmly • Use metal processing tools to perform chip removal forming processes • Use metal processing tools to perform chip-less forming processes Perform basic arc welding • Prepare materials • Perform arc welding Maintain plumbing tools and equipment • Describe preventive maintenance procedures • Maintain and/or replace tool insulation • Clean and store plumbing tools, equipment and instruments Meet set timeframes for using and maintaining plumbing tools and equipment
2. Complete knowledge assessment	Answer all questions my assessor may have during the practical assessment
3. Other requirements	• All candidate formative assessments completed by Instructor including; - o Observations - o Demonstrations - o Questions and recorded answers • All work produced as module projects and assignments • Completed learner logbooks • Completed work records • Measuring instrument calibration records

ASSESSOR JUDGEMENT GUIDE

Candidate Name:

Father Name:

INSTRUCTIONS FOR ASSESSOR

THIS SECTION CONTAINS MINIMUM EVIDENCE REQUIREMENTS.

The supplied plumbing system requiring use of plumbing tools and equipment must meet the evidence requirements of the candidate's competence in using plumbing tools and equipment

Set timeframe for practical skill demonstration must reflect the commercially viable timeframe for the tasks.

Oral questioning may be used to clarify candidate understanding of the topic and its application

ACTIVITIES	MINIMUM EVIDENCE REQUIRED	YES/NO	ASSESSOR COMMENTS
1. Complete practical assessment of using and maintaining plumbing tools and equipment under observation by an assessor	During a practical assessment, under observation by an assessor, the candidate correctly carried out:		
	Using plumbing tools and equipment		
	Identify and select tools, equipment and instruments		
	Demonstrate safe use of tools, equipment and instruments		
	Perform bench work		
	Secure work piece firmly		
	Use metal processing tools to perform chip removal forming processes		
	Use metal processing tools to perform chip-less forming processes Maintaining batteries		
	Perform basic arc welding		
	Prepare materials		
	Perform arc welding		
	Maintain plumbing tools and equipment		
	Describe preventive maintenance procedures		
	Maintain and/or replace tool insulation		
	Clean and store plumbing tools, equipment and instruments		
	Meeting set timeframes for using and maintaining plumbing tools and equipment		
2.	Answer all questions my assessor may have during the practical assessment		
3. Other requirements	- All candidate formative assessments completed by Instructor including; - Observations - Demonstrations - Questions and recorded answers - All work produced as module projects and assignments - Completed learner logbooks - Completed work records - Measuring instrument calibration records		

4

LIST OF TOOLS, EQUIPMENT, MATERIAL AND CONTEXT OF ASSESSMENT

instructions	This section contains information regarding; - Context of the assessment - List of required tools and equipment. - List of consumable items required during the service
1. Context of Assessment	This practical skill demonstration will be conducted in a Plumber's lab/workshop environment The Assessor will select the required tools, equipment and consumables from the list below for the assessment

2. List of tools and equipment required		
S. No	Tools and equipment	Quantity
1	Adjustable wrench 6",8",12"	
2	Pipe Bender Machine Hydraulic complete set	
3	Chisel set	
4	Trowel	
5	Electric Drill machine(hammering with healti)3/4"	
6	Die (Ratchet),Die Fix 1/2,3/4,1,2	
7	Extension board 10 meter 2 core	
8	First Aid box	
9	Gloves lather, rubber	
10	Safety goggles Plastic, glass	
11	Hand Electric Grinder Electric Wall Cutter	
12	Grip plier 10"	
13	Hammer 250gm,500gm,1000gm,1500gm,2000gm	
14	Hand bit 1/4" , 3/8"	
15	Helmet ABS Material	
16	Hacksaw 12" with blade	
17	Spirit Level 6",12",8"	
18	L-key set Star L key Set	
19	Measuring tape meter ,10 meter	
20	Pipe wrench ,10",12",14",18"	
21	Plass (pipe cutter) 1/2", 2"	
22	PPRC Heater 750W to 1000W	
23	PPR/Gi cutter 10" Gi Pipe Cutter 1/2 to 2"	
24	Safety boots(Shoes)	
25	Screw driver set 6",8",10",12"	
26	Spanner set 6mm to 24mm	
27	Testing pump (leakage) (Hand type)	
28	Tools box iron+3 draws	
29	Torch Chargeable	
30	Vice with iron stand(2nos)	
31	Compass Spring type 8"	
32	Solar Water Heater (Complete Set) Different denominations of different types	
33	Water Filling Pumps Centrifugal pump 1/2" Reciprocating 1/2	
34	Pipe Insulation Material	
35	Sealing Tapes	
36	Bench Vice 5" with bench	
37	Oil Can	
38	Center Punch	

39	Wire Brush	
40	Pipe Reemar	
41	Tap Set 1/8",1/4",3/8",1/2",3/4",1" with handle	
42	Air Compressor 10 bar	
43	Tri square 6",8"	

3. List of consumable items required		
S. No	Consumable items	Quantity
1	Gi Pipe 1/2",3/4",1"	
2	Gi fitting 1/2",3/4",1" (Elbow, tee, socket etc.)	
3	PPRC pipe 25mm,32mm	
4	PPRC fitting 25mm,32mm	
5	PVC pipe 2",3",4"	
6	U PVC 2",3",4"	
7	P trap 4"	
8	Solution PVC	
9	All types of valves 1/2",3/4",1"	
10	Plastic Pipe 1/2",3/4",1"	
11	Cp Fitting

ASSESSMENT SUMMARY & RECORD

CANDIDATE NAME:					FATHER NAME:		
ACTIVITY		METHOD			DESIRED OUTCOMES	RESULT	
NATURE OF ACTIVITY	WRITTEN	ORAL	OBSERVATION	PORTFOLIOS	DESIRED OUTCOMES FOR SUCCESSFUL ASSESSMENT OF COMPETENCY STANDARD: DEMONSTRATE KNOWLEDGE OF SOLAR WATER HEATING SYSTEM TYPES	COMPETENT	NOT YET COMPETENT
Knowledge Assessment		✓			Answer all questions in the knowledge assessment on the following topics: • Demonstrate basic knowledge of solar water heating systems • Demonstrate knowledge of solar water heating system components • Outline hazards associated with solar water heating		
Other Requirements	✓	✓	✓	✓	• All candidate formative assessments completed by Instructor including; - o Observations - o Demonstrations - o Questions and recorded answers • All work produced as module projects and assignments • Completed learner logbooks • Completed work records		

2

CANDIDATE ASSESSMENT

Candidate Name:

Father Name:

ALL WORK ASSESSED IN THIS COMPETENCY STANDARD MUST BE YOUR OWN WORK.

GUIDANCE TO CANDIDATE

To meet this standard you are required to complete the following knowledge assessment within 1 hour timeframe on the following topics:

- Demonstrate basic knowledge of solar water heating systems
- Demonstrate knowledge of solar water heating system components
- Outline hazards associated with solar water heating

ACTIVITIES	CANDIDATE RESPONSE
1. Complete knowledge assessment	Answer all questions in the knowledge assessment on the following topics: Demonstrate basic knowledge of solar water heating systems: • Describe the direct or open loop solar water heating system in terms its operation • Describe the indirect or closed loop solar water heating system in terms its operation • Discuss advantages and disadvantages of each system Demonstrate knowledge of solar water heating system components: • Describe solar collector options • Describe storage tank options • Explain solar water heating valves and piping • Discuss backup heating options Outline hazards associated with solar water heating • Define hazards associated with installation of solar water heating systems • Define hazards associated with maintenance of solar water heating systems
2. Other requirements	• All candidate formative assessments completed by Instructor including; - o Observations - o Demonstrations - o Questions and recorded answers • All work produced as module projects and assignments • Completed learner logbooks • Completed work records • Measuring instrument calibration records

3

ASSESSOR JUDGEMENT GUIDE

Candidate Name:

Father Name:

INSTRUCTIONS FOR ASSESSOR

THIS SECTION CONTAINS MINIMUM EVIDENCE REQUIREMENTS.

Oral questioning may be used to clarify candidate understanding of the topic and its application.

ACTIVITIES	MINIMUM EVIDENCE REQUIRED	YES/NO	ASSESSOR COMMENTS
1. Complete knowledge assessment	Answer all questions in the knowledge assessment on the following topics:		
	Demonstrate basic knowledge of solar water heating systems:		
	Describe the direct or open loop solar water heating system in terms its operation		
	Describe the indirect or closed loop solar water heating system in terms its operation		
	Discuss advantages and disadvantages of each system		
	Demonstrate knowledge of solar water heating system components:		
	Describe solar collector options		
	Describe storage tank options		
	Explain solar water heating valves and piping		
	Discuss backup heating options		
2. Other requirements	Outline hazards associated with solar water heating		
	Define hazards associated with installation of solar water heating systems		
	Define hazards associated with maintenance of solar water heating systems		
	- All candidate formative assessments completed by Instructor including; - Observations - Demonstrations - Questions and recorded answers		
	- All work produced as module projects and assignments - Completed learner logbooks - Completed work records - Measuring instrument calibration records		

4

LIST OF TOOLS, EQUIPMENT, MATERIAL AND CONTEXT OF ASSESSMENT

instructions	This section contains information regarding; • Context of the assessment • List of required tools and equipment. • List of consumable items required during the service
1. Context of Assessment	This practical skill demonstration will be conducted in a Building Electrician's lab/workshop environment

2. List of consumable items required		
S. No	Consumable Items	Quantity
1	Pen	1 per candidate
2	Knowledge assessment with sufficient space for answers	1 per candidate
